Summary

- Introduction
- Data Controller
- How this Application uses Tracking Tools
- How to manage preferences
- Definitions and legal references

Introduction

This document contains information about the technologies that allow this Application to achieve the purposes described below. These technologies allow the Controller to collect and save information, for example through the use of Cookies, or to use resources, for example by running a script, on the User's device when the User interacts with this Application.

For simplicity, in this document such technologies are collectively referred to as Tracking Tools, unless there is a reason to distinguish them.

For example, although Cookies may be used in both web and mobile browsers, it would be inappropriate to refer to Cookies in the context of mobile applications, since they are Tracking Tools that require a browser. For this reason, within this document the term Cookie is used only to specifically indicate that particular type of Tracking Tool.

Some of the purposes for which Tracking Tools are used may also require the User's consent. If consent is given, it may be freely withdrawn at any time by following the instructions contained in this document.

This Application uses only Tracking Tools managed directly by the Controller, commonly referred to as first-party Tracking Tools.

The duration and expiration of first-party Cookies and other similar Tracking Tools may vary depending on the settings defined by the Controller. Some of them expire at the end of the User's browsing session.

How this Application uses Tracking Tools

Necessary

This Application uses Cookies commonly referred to as technical Cookies, or similar Tracking Tools, to carry out activities strictly necessary to ensure the operation or provision of the Service.

How to manage preferences and give or withdraw consent on this Application

Where the use of Trackers is based on consent, the User may give or withdraw such consent by setting or updating their preferences through the relevant privacy choices panel available on this Application.

How to control or delete Cookies and similar technologies through your device settings

Users may use their browser settings to:

- see which Cookies or similar technologies have been set on the device;
- block Cookies or similar technologies;
- delete Cookies or similar technologies from the browser.

Browser settings, however, do not allow granular control of consent by category.

Users may find information on how to manage Cookies in some of the most common browsers at the following addresses:

- Google Chrome
- Mozilla Firefox
- Apple Safari
- Microsoft Internet Explorer
- Microsoft Edge
- Brave
- Opera

Users may also manage certain Tracking Tools for mobile applications by disabling them through the appropriate device settings, such as the advertising settings for mobile devices or the general tracking

settings. Users may consult their device settings to find the relevant option.

Consequences of refusing the use of Tracking Tools

Users are free to decide whether or not to allow the use of Tracking Tools. However, please note that Tracking Tools allow this Application to provide Users with a better experience and advanced features, in line with the purposes outlined in this document. Therefore, if the User decides to block the use of Tracking Tools, the Controller may not be able to provide the related features.

Definitions and legal references

Personal Data or Data

Personal Data means any information that directly, indirectly or in connection with any other information, including a personal identification number, allows for the identification or identifiability of a natural person.

Usage Data

Usage Data is information collected automatically through this Application, including by third-party applications integrated into this Application, such as the IP addresses or domain names of the computers used by the User who connects to this Application, URI addresses, the time of the request, the method used to submit the request to the server, the size of the file received in response, the numerical code indicating the status of the server response, the country of origin, the features of the browser and operating system used by the visitor, the various time details per visit, such as the time spent on each page, and details about the path followed within the Application, with special reference to the sequence of pages visited and other parameters about the User's operating system and IT environment.

User

The individual using this Application who, unless otherwise specified, coincides with the Data Subject.

Data Subject

The natural person to whom the Personal Data refers.

Data Processor

The natural or legal person, public authority, agency or other body that processes Personal Data on behalf of the Controller, as described in this privacy policy.

Data Controller

The natural or legal person, public authority, agency or other body that, alone or jointly with others, determines the purposes and means of the processing of Personal Data and the tools adopted, including security measures relating to the operation and use of this Application. Unless otherwise specified, the Data Controller is the owner of this Application.

This Application

The hardware or software tool through which Users' Personal Data is collected and processed.

Service

The Service provided by this Application as defined in the relevant terms, if any, on this site/application.

European Union or EU

Unless otherwise specified, any reference to the European Union contained in this document shall be deemed to include all current member states of the European Union and the European Economic Area.

Legal references

Unless otherwise specified, this policy relates exclusively to this Application.
